Meeting Called to Order

President's Remarks

John Spritz noted that the meeting was to call a vote to file for intervenor status at the upcoming public meeting regarding the Nordic Aquafarms proposal for a land-based salmon farm in Belfast. Filing for intervenor status does not obligate the NVC Board of Overseers to take any further action; rather, it reserves the rights of the NVC Board of Overseers to formally present concerns if they see fit as the hearing approaches, and more information becomes available.

The emergency meeting was necessary because of the July 12th deadline to file for intervenor status, before the next scheduled meeting of the Overseers on July 14th.

Motion:

Judy Metcalf moved to file for intervenor status in the Nordic Aquafarms application. The motion was seconded by Michael Tirrell.

VOTE – all in favor.

Judy agreed to file the necessary paperwork on behalf of the NVC.

Adjourned.
