## Tree Committee Minutes

Members Present: Lisa Fryer, Vicky Matthews, John Woolsey, Better Woolsey, Michael Tirrell and Joe Reilly

The Committee has received another email from Mr. Homans.

The Committee has decided to “table” the issue and hand back to the Overseers for guidance/feedback on how they would like the work to proceed or not proceed

The Infrastructure Committee reported that the apple tree in the kayak area was removed during construction. They would like to know what to do with the issue. The Tree Committee supports not placing another tree in the same spot since it would be planted over the new “mesh wall.” We would like the money to be set aside and we will decide where/when a tree is planted in the next year.
