Good afternoon Ms. Haywood,
Concerning the recent update on speeding in the village, I would like to add that Bayside Road is a major safety concern. There are many people walking and biking along Bayside Rd, many of which are children and pets. A few years ago the speed limit was reduced to attempt to slow down the traffic, but during the summer it is frequently ignored. I am hoping that Bayside Road will be added to the list of areas that will be targeted for reducing speeding.

Yours truly,
Lisa Brita
